Experience in Orthopaedics and Trauma Surgery

I qualified in 1996 and since 1999 I have been practising in the speciality of Orthopaedics and Trauma Surgery. Two of these years were spent as a senior house officer and the six years were as a specialist registrar on the Yorkshire training programme. Details of the specific hospitals I have worked in both during my basic surgical training and higher surgical training can be found lower down in the CV.

I undertook three fellowships during my training. The first was the Harrogate knee fellowship between September 2005 and February 2006. I did the EFORT spring travelling fellowship to Turkey in May 2006. My main fellowship was the Wirral Foot and Ankle fellowship between March 2007 to March 2008 with Mr N Geary.

I started my current post as a Consultant in Trauma and Orthopaedic Surgery at Calderdale and Huddersfield NHS Trust on April 1st 2008.
